**SHIBLI**

Abu Dhabi, UAE – January 2017 - Tarsier Thermal Weapon Sight and SKUA Thermal Binocular, promise to be the highlight of International Defence Exhibition and Conference 2017 (IDEX). SHIBLI, a Pakistani Original Equipment Manufacturer of Thermal Imagers for Land Force will showcase their indigenous thermal imagers for handheld as well as weapon mounted observation and target acquisition purposes.

SHIBLI's uncooled thermal imagers are quite, compact and instant. Operable in both day and night time, featuring instant boot up and power autonomy of more than 8 Hours on single standard battery pack, TARSIER TWS and SKUA TI Bino are one of the most advanced uncooled thermal imagers to be exhibited at IDEX 2017 this year. Tarsier Thermal Weapon Sight, company's uncooled thermal imaging solution for small arms is compatible with wide range of weapons mainly but not limited to; HMG, LMG, HSR and SSR due to its military standard Picatinny Mount. While SKUA, a handheld observation binocular is an ideal solution for forces in scouting and surveillance roles due to its light weight and ergonomic design.

Technical Specifications of both thermal imagers boast Long range DRI of 4.4 Km for vehicle target and 2.5 Km for human target. Products are mil-spec and ruggedized for harsh military environments, and with addition of features like external video display, software modification, 4x Electronic Zoom, the devices not only cater to the effectiveness in modern warfare without compromising on the conventional battlefield needs.

Yesteryear, SHIBLI launched TARSIER TWS and SKUA TI Bino at Eurosatory France and subsequently displayed their products at IDEAS 2016 after significant appreciation and acclaim by global arms industry and armed forces. SHIBLI plans to continue research and development in thermal imaging solutions and contribute to the technological advancements for global defence and peace.

---

*-SHIBLI is the only private manufacturer of thermal imagers in Pakistan. SHIBLI's design and development center is located in Dubai UAE. For more information please contact [waseem@shibli.com](mailto:waseem@shibli.com) or logon to our website [www.shibli.com](http://www.shibli.com)*
